

**GTS**  
GLOBAL TECHNICAL SUPPORT

## Aircraft Audits/Acceptance/Re-deliveries

**GTS** will physically inspect the aircraft and the records to issue a comprehensive and conclusive report, giving full visibility of the real condition of the aircraft.

**GTS** will verify the following items to generate the aircraft evaluation reports:

- Aircraft, Engines and APU Log Books
- Current Certifications (Noise, Airworthiness, registration, etc)
- Airworthiness Directives and Service Bulletin Status (with supporting documents)
- Aircraft Major Modifications list (with supporting documents)
- Repetitive inspection list
- Installed Hard Time and On Condition components list (with supporting documents)
- Repair and dent charts
- Maintenance Plan status (cross check with the plan from the manufacturer)
- Interiors configuration (LOPA and Emergency Equipment Lay Out)
- ETOPS configuration status (when applicable)

(Cont.)
